📄 PROFILE

- A motivated and enthusiastic 1st-year undergraduate with a strong interest in technology, programming, and frontend web development.
- Skilled in Python and Excel, with hands-on experience in building several practical projects that showcase problem-solving and creativity.
- Holds certifications in Python and Excel, reflecting a commitment to continuous learning and skill development.
- Eager to gain exposure, contribute to team projects, and further enhance abilities in software development, frontend web development, and emerging technologies.
- Looking forward to opportunities that provide hands-on experience and allow making meaningful contributions to innovative projects.

📜 CERTIFICATES

Python 📄

Intermediate level

MS Excel 📄

Beginner

Web Development 📄

Intermediate level

🎸 INTERESTS

Frontend Development

- Skilled in building responsive and interactive web interfaces using **React.js, HTML, CSS, and JavaScript**.

Exploring New Technologies & Tools

- Continuously learning and experimenting with **modern frontend frameworks and libraries** like React.js, Tailwind CSS, and JavaScript enhancements.
- Keeps up-to-date with the **latest web development trends and best practices**.
- Enjoys building **small projects and prototypes** to apply and test new technologies in real-world scenarios.

📁 PROJECTS

WEATHER APP 📄

Developed an interactive Weather Application using JavaScript, fetching real-time data from a free API to display temperature, humidity, and weather conditions for any city. Implemented dynamic DOM updates for a responsive and user-friendly experience.

TO-DO LIST 📄

Built a dynamic To-Do List web application using JavaScript, HTML, and CSS, allowing users to add, edit, and delete tasks. Implemented Local Storage for data persistence and DOM manipulation for a responsive, interactive user experience.

E-COMMERCE WEBSITE

Developed a responsive E-commerce web application using React.js that allows users to browse and add electronic items to the cart after secure login or signup. Implemented user authentication, cart management, and a dummy payment system for a complete shopping experience.

LOGIN/SIGN UP PAGE

Developed a responsive Login and Signup web application using React.js with efficient state management and form validation. Designed a modern, user-friendly interface ensuring smooth navigation between pages. Deployed the project on GitHub Pages for seamless accessibility.

PORTFOLIO

Developed my personal portfolio website, featuring my tech stack, services, projects with links, and social profiles. Built an interactive contact form that saves messages locally for user convenience. Implemented a responsive and engaging UI for seamless browsing across devices. Showcases my skills, work, and professional presence effectively in one platform.

SKILLS

Web Development — Learned to build interactive and visually appealing web pages using **HTML, CSS, and JavaScript** | Gained hands-on experience in **DOM manipulation** and creating responsive user interfaces. | Learnt **React.js** and developed a complete **e-commerce website** with login/signup pages and a dummy payment feature.

MS Excel — Proficient in creating and managing spreadsheets, using **formulas, functions, and conditional formatting** for data analysis. | Experienced in **data visualization** through charts and graphs to present insights effectively. | Skilled in **pivot tables** and **data sorting/filtering** for organizing and summarizing large datasets. | Built practical examples and mini-projects to apply **Excel for problem-solving and data management**.

Python — Proficient in **Python programming basics** including variables, loops, functions, and data structures. | Experienced in building small projects and scripts to **solve problems and automate tasks**.

PROFESSIONAL EXPERIENCE

FRONTEND WEB DEVELOPER, ACM STUDENT CHAPTER GGSIPU

Currently contributing to web development projects and gaining hands-on experience with React.js. Learning to design responsive and user-friendly interfaces while collaborating with the team on club initiatives.

Web Developer, IEEE & IEEE Women in Engineering (WIE) GGSIPU

Active member of IEEE and WIE student branches, participating in technical events, workshops, and community initiatives promoting innovation and women empowerment in technology.

EDUCATION

BACHELOR'S OF TECHNOLOGY(B.TECH), GGSIPU

08/2025 – 2029
